

Responsible Gaming Policy – Swiftbet

At Swiftbet, owned and operated by Tirpsmon Limited, we are committed to promoting responsible gaming and ensuring that betting remains a safe, enjoyable, and controlled form of entertainment. We recognize that while most users play for fun, a small number may experience difficulties related to gambling behavior.

To support our players, we offer tools that help manage their gaming activity, including deposit limits, self-exclusion options, and reality checks. We encourage our users to gamble responsibly by setting personal limits and never chasing losses. Gambling should never interfere with your personal, financial, or social life.

Swiftbet strictly prohibits underage gambling. Only individuals aged 18 or over are allowed to open an account and place bets on our platform. We use robust verification measures to enforce this policy.

If you or someone you know is struggling with gambling-related issues, we strongly encourage seeking help. We work closely with reputable organizations that offer professional support, including helplines and counseling services.

Tirpsmon Limited believes that responsible gaming is a shared responsibility. We are committed to protecting our users and upholding the highest standards of player welfare and ethical gaming practices.

Play smart. Play safe. Bet responsibly with Swiftbet.
